

Maths Ninjas!

[Click here for EN Learning & registration](#)

Our goal is to accelerate your child's learning by making maths focused and fun!

- Whether your child is a maths whizz or needing some support, we will assess and individually **target areas** that need development.
- Take pressure off transfer test preparation with a focus on enhancing mathematical conceptual understanding.
- Available to children from **P5 to P7**.
- All activities are aligned with the Northern Ireland curriculum.
- Highly experienced tutors.
- Lots of **gamification** of learning to make progress fun!
- Activities are based on your child's attainment level so work is always appropriately targeted.

To register, please use the *QR code* and complete our *registration form* for Maths Ninjas.
